

Paul Vitenas, Jr., MD, FACS

The Fine Art of Natural Cosmetic Surgery

"It is a rare and humbling privilege to be able to do what I do as a plastic surgeon. I make people happy by changing their lives and outlooks every day." Dr. Paul Vitenas is a board certified plastic surgeon with 26 years of surgical experience. Dr. Vitenas is dedicated to the fine art of achieving beautiful and natural results in the safest possible environment. He believes each patient is unique and deserves a personalized plan. This attention to detail requires excellent communication and the cultivation of trust between patient and surgeon. "We want our patients to feel welcome in our office so that we can establish long-term relationships."

Dr. Vitenas and his staff believe in the relentless pursuit of perfection and see no substitute for achieving that objective. "Above all else, I can not overemphasize the importance of the artistic abilities necessary in a cosmetic surgeon. Your plastic surgeon should not only be well trained and technically capable, but artistically gifted as well. We hope to have the opportunity to discuss your particular wishes and goals in the near future. I look forward to designing a plan to make your vision a reality."

Education: Tulane University, B.S.; Tulane University School of Medicine, M.D.; Tulane Medical Center, Residency in general and plastic surgery; University of Miami and Paris, France, Fellowship.
